COLUMBUS, Ind.--(BUSINESS WIRE)--Apr. 30, 2019-- Cummins Inc. (NYSE: CMI) today reported results for the first quarter of 2019.

First quarter revenues of \$6.0 billion increased 8 percent from the same quarter in 2018. Increased truck production in North America and stronger demand in global construction and North American power generation markets drove the majority of the revenue increase. Currency negatively impacted revenues by 2 percent primarily due to a stronger US dollar.

First quarter sales in North America improved by 13 percent while international revenues increased by 1 percent.

"The company shipped a record number of truck engines in North America during the first quarter," said Chairman and CEO Tom Linebarger. "Our market-leading position in this region reflects our close partnerships with our customers who rely on us to provide a broad range of power solutions for their needs."

Earnings before interest, taxes, depreciation and amortization (EBITDA) in the first quarter were a record \$1.0 billion, or 17.2 percent of sales, compared to \$700 million or 12.6 percent of sales a year ago. First quarter results include a non-segment and non-taxable gain of \$37 million (\$0.23 per diluted share) related to the mark to market impact on assets related to our non-qualified benefit plans.

Net income attributable to Cummins in the first quarter was \$663 million (\$4.20 per diluted share), compared to net income of \$325 million (\$1.96 per diluted share), or \$403 million (\$2.43 per diluted share) excluding the impact of tax legislation in the first quarter of 2018.

"We achieved record EBITDA in the first quarter while also celebrating our 100th anniversary," Linebarger said. "We are on track to deliver record results for the year and return significant capital to investors, and will continue to invest across our broad portfolio to power a strong future for our stakeholders."

2019 Outlook:

Based on the current forecast, Cummins is maintaining its 2019 revenue guidance of flat to up 4 percent driven primarily by increased demand in North America on-highway markets. EBITDA is expected to be in the range of 16.25% to 16.75% of sales, an increase from the prior range of 15.75% to 16.25% of sales, primarily due to lower projected material costs. The Company expects to return 75 percent of Operating Cash Flow to shareholders in 2019 in the form of dividends and share repurchases.

Our outlook does not include any potential impact of the company's recently announced review of its emission certification process and compliance with emissions standards.

First Quarter 2019 Highlights:

- Cummins was named to Ethisphere's list of the World's Most Ethical Companies for a 12th consecutive year.
- Barron's magazine announced that Cummins made its 100 Most Sustainable Companies list, moving from No. 60 in its inaugural ranking in 2018 to No. 14 in its 2019 list.
