#### CUMMINS INC. AND SUBSIDIARIES SEGMENT INFORMATION (Unaudited)

As previously announced, beginning with the second quarter of 2016, we realigned certain of our reportable segments to be consistent with changes to our organizational structure and how the Chief Operating Decision Maker monitors the performance of our segments. We reorganized our business to combine our Power Generation segment and our high horsepower engine business to create the new Power Systems segment. Our reportable operating segments of Engine, Distribution, Components and Power Systems. We began to report results for our new reporting structure in the second quarter of 2016 and also reflected this change for historical periods.

We allocate certain common costs and expenses, primarily corporate functions, among segments. These include certain costs and expenses of shared services, such as information technology, human resources, legal, finance and supply chain management. In addition to the reorganization noted above, we reevaluated the allocation of these costs, considering the new segment structure created in April 2016 and adjusted our allocation methodology accordingly. The revised methodology, which is based on a combination of relative segment sales and relative service usage levels, is effective for the periods beginning after January 1, 2016 and resulted in the revision of our segment operating results, including segment earnings before interest, income taxes and noncontrolling interests (EBIT), for all four segments for the first quarter of 2016 with a greater share of costs allocated to the Distribution and Components segments than in previous years. Prior periods were not revised for the new allocation methodology. These changes had no impact on our consolidated results.

<sup>(1)</sup> Includes intersegment sales, intersegment profit in inventory eliminations and unallocated corporate expenses. There were no significant unallocated corporate expenses for the nine months ended October 2, 2016 and September 27, 2015.

(<sup>3)</sup> Depreciation and amortization as shown on a segment basis excludes the amortization of debt discount and deferred costs included in the *Condensed Consolidated Statements of Income* as "Interest expense." The amortization of debt discount and deferred costs was \$2 million for the nine months ended October 2, 2016 and September 27, 2015.

A reconciliation of our segment information to the corresponding amounts in the Condensed Consolidated Statements of Income is shown in the table below:

#### LOSS CONTINGENCY

In the fourth quarter of 2015, we disclosed the request by one customer to participate in the design and bear the financial cost of a field campaign (Campaign) associated with quality issues in certain third party aftertreatment systems causing some of our inter-related engines to fail in-use emission testing. We established a reserve in the fourth quarter of 2015. In the second quarter of 2016, we recoded an additional accrual of \$39 million based upon the Campaign design at the time. Additional in-use emission testing performed in the third quarter of 2016 has indicated that the Campaign should be expanded to include a larger population of vehicles. Our third quarter results include an additional accrual of \$99 million to reflect the higher estimated cost of the expanded Campaign. We have not reached a cost sharing agreement with our customer related to this matter and our final cost could differ from what we have recorded.

#### CUMMINS INC. AND SUBSIDIARIES FINANCIAL MEASURES THAT SUPPLEMENT GAAP (Unaudited)

#### Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding special items

We believe these are useful measures of our operating performance for the periods presented as they illustrate our operating performance without regard to special items including tax adjustments. These measures are not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America (GAAP) and may not be consistent with measures used by other companies. It should be considered supplemental data. The following table reconciles net income attributable to Cummins Inc. to net income attributable to Cummins Inc. excluding special items for the following periods:

|   |     |          |         | Three mo       | nths e | nded             |             |         |

(1) The loss contingency is net of the favorable variable compensation impact.

#### Earnings before interest, income taxes and noncontrolling interests

We define EBIT as earnings before interest expense, income tax expense and noncontrolling interests in income of consolidated subsidiaries. We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. This measure is not in accordance with, or an alternative for, GAAP and may not be consistent with measures used by other companies. It should be considered supplemental data. Below is a reconciliation of EBIT to "Net income attributable to Cummins Inc." for each of the applicable periods:

|  |      | Three more  | nths ende | d            |     | Nine mor     | ths ende | d             |

#### Engine Segment Sales by Market and Unit Shipments by Engine Classification

In the second quarter of 2016, in conjunction with the reorganization of our segments, our Engine segment reorganized its reporting structure as follows:

- Heavy-duty truck We manufacture diesel engines that range from 310 to 600 horsepower serving global heavy-duty truck customers worldwide, primarily in North America.
- Medium-duty truck and bus -We manufacture diesel engines ranging from 200 to 450 horsepower serving medium-duty truck and bus customers worldwide, with key markets including North America, Latin America, Europe and Mexico. We also provide diesel and natural gas engines for school buses, transit buses and shuttle buses worldwide, with key markets including North America, Europe, Latin America and Asia, and diesel engines for Class A motor homes (RVs), primarily in North America.
- Light-duty automotive (Pickup and Light Commercial Vehicle (LCV)) -We manufacture 105 to 385 horsepower diesel engines, including engines for the pickup
  truck market for Chrysler and Nissan in North America, and LCV markets in Europe, Latin America and Asia.
- Off-highway We provide diesel engines that range from 60 to 755 horsepower to key global markets including construction, mining, rail, defense, agriculture, marine, and oil and gas equipment and also to the power generation business for standby, mobile and distributed power generation solutions throughout the world.

Sales for our Engine segment by market were as follows:

#### Power Systems Segment Sales by Product Line and Unit Shipments by Engine Classification

In the second quarter of 2016, in conjunction with the reorganization of our segments, our Power Systems segment reorganized its reporting structure into the following product lines:

- Power generation We design, manufacture, sell and support generators ranging from 2 kilowatts to 3.5 megawatts, as well as paralleling systems and transfer switches, for applications such as residential, commercial, industrial, data centers, health care, telecommunications and waste water treatment plants. We also provide turnkey solutions for distributed generation and energy management applications using natural gas or biogas as a fuel. We also serves global rental accounts for dissel and gas generator sets.
- Industrial We design, manufacture, sell and support diesel and natural gas high-horsepower engines up to 5,500 horsepower for a wide variety of equipment in the
  mining, rail, defense, oil and gas, and commercial marine applications throughout the world. Across these markets, we have major customers in North America,
  Europe, Middle East, Africa, China, Korea, Japan, Latin America, India, Russia, Southeast Asia, South Pacific and Mexico.
- Generator technologies We design, manufacture, sell and support A/C generator/alternator products for internal consumption and for external generator set
  assemblers. Our products are sold under the Stamford, AVK and Markon brands and range in output from 3 kilovolt-amperes (kVA) to 12,000 kVA.

## Sales for our Power Systems segment by product line were as follows:

## For Immediate Release

November 1, 2016

## **Cummins Announces Third Quarter 2016 Results**

- Third quarter revenues of \$4.2 billion, EBIT of 9.5 percent of sales,
- GAAP<sup>1</sup> net income of 6.9 percent of sales, Diluted EPS of \$1.72
- Expects full year 2016 revenues to be down 9 percent, unchanged
- Full year 2016 EBIT expected to be 11.3 percent of sales, compared to prior guidance of 11.6 to 12.2 percent

COLUMBUS, IND. - Cummins Inc. (NYSE: CMI) today reported results for the third quarter of 2016.

Third quarter revenues of \$4.2 billion decreased 9 percent from the same quarter in 2015. Lower truck production in North America and weak international demand for power generation equipment were the most significant drivers of the decline in sales. Currency negatively impacted revenues by approximately 2 percent compared to last year, primarily due to a stronger US dollar.

Revenues in North America decreased 13 percent while international sales declined by 3 percent. Within international markets, higher revenues in China partially offset declines in the Middle East and Africa.

Earnings before interest and taxes (EBIT) were \$398 million in the third quarter, or 9.5 percent of sales, and included a \$99 million increase in an existing accrual for a loss contingency. EBIT in the third quarter of 2015 was \$577 million or 12.5 percent of sales.

Net income attributable to Cummins was \$289 million (\$1.72 per diluted share). The loss contingency charge, net of its impact on compensation plans, reduced diluted earnings per share by 30 cents. The tax rate in the third quarter of 2016 was 21.5 percent. Net income in the third quarter of 2015 was \$380 million (\$2.14 per diluted share).

"Due to the slow pace of growth in the global economy, we continue to face weak demand in a number of our most important markets. The restructuring actions that we initiated in the fourth quarter of 2015, combined with strong execution on material cost reduction initiatives, productivity gains and improvements in product quality are all helping to mitigate the impact of weaker revenues. We are on track to deliver our goal of 25% decremental EBIT margin for the full year 2016, as a result of strong operational performance in very challenging economic conditions," said Chairman and CEO Tom Linebarger. "We have returned \$1.3 billion to shareholders so far this year, through a combination of dividends and share repurchases, consistent with our plans to return 75 percent of operating cash flow to shareholders in 2016."

Based on the current forecast, Cummins expects full year 2016 revenues to be down 9 percent, consistent with its prior guidance of down between 8 and 10 percent. Full year EBIT is expected to be 11.3 percent of sales, down from the prior forecast of 11.6 to 12.2 percent. The reduction in EBIT guidance is primarily a result of an increase in the expected costs of a loss contingency in the third quarter. As disclosed in prior quarters, the loss contingency relates to the costs of a campaign to remedy quality issues with third party aftertreatment systems, which were sourced by one of our OEM customers and are paired with our engines in the OEM vehicle.

Other recent highlights:

- Cummins was recognized with the 2016 United States Overall Best Heavy-Duty Truck Engine Supplier Leadership Award by Frost
  and Sullivan
- The Company announced that it will partner with Peterbilt Motors Company, a division of PACCAR, to develop and demonstrate technologies under the U.S. Department of Energy Supertruck II program
- Cummins has been inducted into the Billion Dollar Roundtable for its commitment to diversity and inclusion
- The Company returned \$1.3 billion to shareholders so far this year, through a combination of dividends and share repurchases

## Third quarter 2016 detail (all comparisons to same period in 2015)

## Engine Segment

- Sales \$1.9 billion, down 12 percent.
- Segment EBIT \$89 million, or 4.8 percent of sales, compared to \$217 million or 10.3 percent of sales
- Segment EBIT reflects a \$99 million increase in an existing accrual for a loss contingency
- On-highway revenues declined 13 percent primarily due to lower heavy and medium-duty truck production in North America

## Distribution Segment

- Sales \$1.5 billion, down 3 percent
- Segment EBIT \$96 million, or 6.4 percent of sales, compared to \$123 million or 7.9 percent of sales
- Increased revenue from acquisitions was more than offset by a 5 percent decline in organic sales and a 1 percent unfavorable impact from currency

## Components Segment

- Sales \$1.1 billion, down 8 percent.
- Segment EBIT \$148 million, or 12.9 percent of sales, compared to \$156 million or 12.6 percent of sales
- Revenues in North America declined due to lower medium and heavy-duty truck production, partially offset by higher revenues in China

## **Power Systems Segment**

- Sales \$856 million, down 13 percent
- Segment EBIT \$59 million, or 6.9 percent of sales, compared to \$74 million, or 7.5 percent of sales
- Revenues declined due to lower power generation and industrial engine demand in Asia, the Middle East and Africa

#### Forward-looking disclosure statement

Information provided in this release that is not purely historical are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our forecasts, guidance, preliminary results, expectations, hopes, beliefs and intentions on strategies regarding the future. These forward looking statements include, without limitation, statements relating to our plans and expectations for our revenues for the full year of 2016. Our actual future results could differ materially from those projected in such forward-looking statements because of a number of factors, including, but not limited to: the adoption and implementation of global emission standards; the price and availability of energy; the pace of infrastructure development; increasing global competition among our customers; general economic, business and financing conditions; governmental action; changes in our customers' business strategies; competitor pricing activity; expense volatility; labor relations; and other risks detailed from time to time in our Securities and Exchange Commission filings, including particularly in the Risk Factors section of our 2015 Annual Report on Form 10-K. Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are made only as of the date of this press release and we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. More detailed information about factors that may affect our performance may be found in our filings with the Securities and Exchange Commission, which are available at <a href="http://www.sec.gov">http://www.sec.gov</a> or at <a href="http://www.sec.gov">http://www.sec.gov</a> or at <a href="http://www.sec.gov">http://www.sec.gov</a> or at <a href="http://

## Presentation of Non-GAAP Financial Information

This earnings release includes information that does not conform to U.S. generally accepted accounting principles (GAAP) and are considered non-GAAP measures. EBIT is a non-GAAP measure used in this release, and is defined and reconciled to what management believes to be the most comparable GAAP measure in a schedule attached to this release. Cummins presents this information as it believes it is useful to understanding the Company's operating performance, and because EBIT is a measure used internally to assess the performance of the operating units.

#### Webcast information

Cummins management will host a teleconference to discuss these results today at 10 a.m. EST. This teleconference will be webcast and available on the Investor Relations section of the Cummins website at www.cummins.com . Participants wishing to view the visuals available with the audio are encouraged to sign-in a few minutes prior to the start of the teleconference.
